WIN RACES AT KIEL

AMERICAN CREWS CAPTURE TWO
FIRSTS FROM A FLEET OF
GERMAN BOATS.

WENT IN WITHOUT TRAINING

YANKEE TARS WIN THEIR VIC-
TORIES DESPITE NUMEROUS
HANDICAPS.

Kiel, June 30.—The American men-of-war men won two firsts, a second and a third in Monday's races against the boats of the German fleet. The Americans had five boats entered in four events, while the Germans had thirty-seven, and the American crews were not familiar with the course and had not specially trained for the occasion.

The closest contest and the one which attracted most attention from the Germans was that between the large launches. Lieutenant Mustin led after the first quarter of a mile and gradually increased his lead until near the finish he was one-eighth of a mile ahead of the San Francisco's launch. Then, from what was probably a civilians' yacht, which was running obliquely, someone yelled something unintelligible to Lieutenant Mustin, and a few moments later the stranger's bowsprit ran through the sail of the Kearsarge's launch, tearing away part of it. Before the two boats could be disentangled the San Francisco's launch passed and a hundred yards behind her came the launch of the Kaiser Wilhelm der Grosse. Lieutenant Mustin and Ensign Steele both outtailed the German boats in turning the mark buoys, gaining several seconds on each turn. The German crews cheered the American winners heartily.

The Chicago's small cutter was beaten eight lengths by a boat manned with men from the emperor's yacht Hohenzollern.

Emperor William Presents Prizes.
The emperor presented the prizes

to the winners at the yacht club at night in the shape of personal gifts to the officers commanding the launches.

In bidding Emperor William farewell on board the Hohenzollern, Rear Admiral Cotton, on behalf of the captains and officers of his squadron, said they would carry away with them never to be forgotten memories of the hospitality and courtesy that had been shown them during their stay here. The emperor replied that the visit had been charming to him personally and he hoped it would be enduring in its impress on the friendship between the two nations. Admiral Cotton and the captains of the American warships at night attended a dinner given by the yacht club in honor of the emperor.

The emperor left on board the Meteor at 7 o'clock this morning for a long sail to Eckernforde.

The American squadron will leave at 7 o'clock this evening.

The jacks of the Kearsarge at night gave a minstrel show and boxing exhibition. Twenty men and four officers from each of the German ships were present. It was the first time that many of the German sailors had seen boxing.

REGARDED AS AN HONOR.

Emperor William's inspection of the Kearsarge Said to Be Courteous.

Washington, June 30.—Secretary Moody Monday received telegrams from newspaper editors and others inquiring as to published reports that Emperor William's inspection of the Kearsarge was sharply criticized in the navy department and was considered a breach of naval etiquette. In reply the secretary sent the following telegram:

"No criticism of the emperor's inspection of the Kearsarge has been uttered by any responsible person in this department so far as I can ascertain. I am informed further by Rear Admiral Taylor, chief of the bureau of navigation, that the emperor's inspection is in no way subject to criticism and can be considered in no light other than courteous attention on the emperor's part to us. It is a long established custom for foreign officials to inspect battleships of friendly nations and is regarded as an honor."

Sworn in as Midshipmen.

Annapolis, Md., June 30.—The following candidates for the naval academy passed their physical examinations Monday and were sworn in as midshipmen: H. E. Holden, Wisconsin; F. G. Lauman, Iowa; L. H. Maxfield and W. P. Williamson, Minnesota.

VICE PRESIDENT OF COLOMBIA
OPPOSES SALE OF CANAL TO
UNITED STATES.

AMERICANS INCITE REVOLT

ALLEGED SCHEME BY WHICH
THEY SEEK TO POSSESS THE
BIG WATERWAY.

London, June 30.—The Morning Advertiser publishes on authority this morning, a statement by the consul general of Colombia concerning the situation between the United States and Colombia with regard to the Panama canal. The statement is as follows:

The signing of the Hay-Herran treaty by the Colombian minister in Washington had been the object of American pressure and intrigue for many months. Every effort has been made to prevent the opposition party, headed by General Reyes, gaining sufficient power to defeat the passage of the bill, but General Reyes is in possession of sufficient armed men to proclaim a revolution and unseat President Marroquin. He does not desire that the United States should not construct the canal, but he does desire fair treatment.

Reyes Prepared to Fight.

General Reyes considers that the terms of payment are insufficient and as a protest he is prepared to fight to the end.

As another means of gaining their end, for many months American agents have been inculcating a spirit of revolt against Colombian control into the minds of the people of Panama, and today the people are ready to rise when called to do so by the American agitators and proclaim their independence. This will be done if General Reyes, the vice president of the republic, is successful in inducing Colombia to refuse to sell. Panama will rise and claim its independence with American guns and ammunition purchased with American money. Once again America will step in and assert the independence of a down-trodden people, as she has done in the past, to her own increased and lasting benefit. Then, the American government will build the canal, enforcing its own terms on the helpless people.

AGITATION SHOULD CEASE.

Rabbi Silverman Says Exigencies of
Kishineff Situation Have Been Met.

Detroit, Mich., June 30.—The annual meeting of the Central Conference of American Rabbis, which was organized in this city fourteen years ago, opened last night in Temple Bethel with three scores rabbis from all parts of the United States present. The night's meeting was largely one of welcome. Rabbi Joseph Silverman of New York, the president of the conference, in his message, however, took up the recent Jewish massacres in Russia and reviewed the protest of the B'Nai B'Rith society to President Roosevelt, and the president's action in forwarding the society's protest to the czar. Rabbi Silverman said that in view of the president's action it was wise to cease further agitation for public meetings of protest and urged the adoption of resolutions thanking the president and informing the public that the exigencies of the situation at Kishineff have been met, so far as possible. Such resolutions will be presented and considered Wednesday morning.

Rabbi Jacob Neitor of San Francisco opened the conference at night with prayer and Mayor Maybury welcomed the rabbis to the city. Dr. Louis Grossman of Cincinnati responded to the mayor's address of welcome. The Rev. Lee S. McColister also made a short address. Rabbi Silverman then read his annual address.

APPEAL TO THE CZAR.

Wilmington Negroes Ask Him to Intercede for Their Race.

Wilmington, Del., June 30.—The monster mass meeting of negroes called by Rev. L. M. Thornton, colored preacher, did not materialize last night, as the leading colored Odd Fellows refused to let the negroes use their hall.

About a score of negroes met at the house of Rev. Thornton and voted to send a petition to the czar of Russia to intercede to protect colored men from lynching in this country. The negroes believe that there is as much propriety in sending an appeal to the czar as there is in the sending of the American-Jewish petition to the czar as a protest against the Kishineff massacres.

CREOSOTE WORKS DESTROYED.

Fire at West Pascagoula, Miss., Causes Heavy Property Loss.

Mobile, Ala., June 30.—The creosote works of the Louisville and Nashville Railroad company at West Pascagoula, Miss., Monday were destroyed by fire, which was caused by the dropping of a red-hot bolt into an oil tank. Besides the buildings, 12,000 barrels of oil, several cars, much valuable timber, and the sectionhouses and the cottages occupied by the employees of the railroad were burned. The rails of the road were twisted into circles covering 400 yards and all traffic to New Orleans was suspended. The total damage is \$250,000.

CHARGED WITH BIGAMY.

Lieutenant McCue Accused of Having Two Wives.

Chicago, June 30.—Lieutenant William K. McCue of the United States army is confronted with a charge of bigamy. Several days ago he arrived at a Chicago hotel with a bride of two weeks. The bride was Miss Viola Simon of San Francisco, who was nearly prostrated Monday when she heard that another woman claimed to be the lieutenant's wife.

McCue had left the hotel and the bride, believing that she had been deserted, made arrangements to return to her parents in San Francisco.

A few minutes before midnight McCue returned, saying that he had spent the day at Fort Sheridan. The bride, in the meantime, had left the hotel and up to a late hour McCue had not been able to find her. He positively denied the charge of bigamy.

About the time the lieutenant was bidding his bride good bye in the morning and telling her he would soon return, Ida Westcott of Cincinnati, who says she is his wife, informed the chief of police there that McCue had contracted a bigamous marriage. She said her wedding took place while McCue was an enlisted soldier stationed at Fort Thomas.

The exposure was brought on when Lieutenant McCue asked his new father-in-law to send cards announcing the wedding to the woman in Cincinnati, who now claims to be his wife.

DECLARES HIS INNOCENCE.

But Barrington Admits the Future Looks Dark for Him.

St. Louis, June 30.—Closely guarded in a cell of the St. Louis county jail, at Clayton, F. Seymour Barrington, charged with the murder of James P. McCann, spent the greater part of the day under close questioning. He maintained a comparatively calm demeanor and while he admitted that the future looked dark for him, he nevertheless stoutly declared his innocence of the alleged crime.

"No matter how much apparent evidence they collect," he said, "the truth will come out in the end."

Conductor Ike Bennett and Motor-man John O'Leary, streetcar men, identified Barrington and McCann as the two men who left their car at Bonfils station on the night of June 18. It was near this point that the body of a dead man identified as that of McCann was found. According to the police, Barrington has made a damaging admission in that he first stated that he and McCann had sought some men in the dark and now he says he and McCann were alone that night and met no men. It transpired Monday that Barrington had no intention of leaving St. Louis until last Saturday afternoon, when, upon learning of the finding of a body near Bonfils, he had his trunk taken to Union station. His arrest followed soon after and his trunk was secured by the police.

ALFRED A KNAPP ON TRIAL.

Eight Witnesses Examined in the Case of the Alleged Wife Murderer.

Hamilton, O., June 30.—Eight witnesses were examined Monday afternoon in the trial of Alfred A. Knapp, who is charged with the murder of Hannah Goddard Knapp, his third wife. The jury was completed at noon. It is evident that the defense will try to upset the confessions made to Mayor Bosch and the sheriff and police, as Lawyer Darby asserted in his opening speech that Knapp denied absolutely all knowledge of his wife's death and would continue to do so regardless of any possible testimony by the state. The witnesses examined were Charles Goddard, Edward A. King, Mrs. Charles Dalliole, Mrs. McElroy, William Sterritt, Mrs. William Sterritt, Arthur Shollenbarger and Charles Millsapough. No new facts were brought out, but the identification of the body was established by Goddard and King and it was proved that soon after his wife's disappearance Knapp began to dispose of her goods and to tell people that she would never return.

Millsapough, who saw Knapp with a wagon at the river, was on the stand when court closed.

INFLECTS FATAL INJURIES.

Insane Farmer Stabs His Wife and Hangs Himself.

Altoona, Pa., June 30.—John Claar, farmer, aged seventy-five years, while temporarily insane, attacked his wife with a butcher knife while she was in bed. He stabbed her four times, inflicting fatal injuries. He then attacked his son Justin with an axe, but the son overpowered him after a struggle and took the weapon from him. The son ran from the house and informed neighbors. On returning he found that his father had hanged himself to a tree near the house. He was dead when cut down.

THREE MEN WOUNDED.

Fatal Shooting Affray Follows Religious Troubles.

Oklahoma City, June 30.—In a shooting affray last evening at Capitol Hill 4 suburb, Dave Lesser was fatally shot and G. F. Walker and Frank Maxey were severely wounded. The quarrel which led to the shooting grew out of neighborhood troubles of a religious character. Frank Maxey, J. B. Rowlett and Albert Gilchrist are in jail.

DEATH LIST INCREASES.

One Hundred and Seventy Persons Killed in Spanish Wreck.

Madrid, June 30.—By midnight one hundred bodies had been extricated from the wreck of the Bilbao train, which was overturned Saturday night from a bridge in the Nejuria river, and it is estimated that seventy corpses remain in the wreckage. The bodies are badly mutilated.

CROWDED ELEVATOR DROPS.

Three North Dakota Boys Badly Injured by an Explosion.

Twenty-three People Injured in an Accident at Allegheny, Pa.

Grand Forks, N. D., June 30.—Three ten-year-old boys—Floyd Luros, Floyd Gile and Ray Soby—at Crary secured a number of shells from which the shot had been taken, poured the powder into an old can and set fire to it.

The explosion was terrific, and the boys were thrown some distance. They were picked up badly bruised and with hands and faces frightfully torn. It is thought the boys will live, but small hopes are entertained of saving their sight.

Pittsburg, June 30.—The breaking of a shaft on the first floor of the H. J. Heinz company's plant in Allegheny Monday released the ropes supporting a large freight elevator on which twenty-three persons stood. The cage fell from the fifth floor into the cellar, a distance of forty-five feet, and everyone on the elevator was injured. It is thought at least two will die.

Three North Dakota Boys Badly Injured by an Explosion.

Grand Forks, N. D., June 30.—Three ten-year-old boys—Floyd Luros, Floyd Gile and Ray Soby—at Crary secured a number of shells from which the shot had been taken, poured the powder into an old can and set fire to it.

The explosion was terrific, and the boys were thrown some distance. They were picked up badly bruised and with hands and faces frightfully torn. It is thought the boys will live, but small hopes are entertained of saving their sight.

AN ASTONISHING OFFER!

IF FOR ANY REASON WE FAIL TO CURE YOUR

CATARRH

of the head, nose, throat, lungs or stomach in any stage the treatment costs you nothing.

You doubtless have catarrh and want to be cured. You have tried nearly everything. Yet there is only one absolutely known cure for catarrh in America, and that is MEDERINE, the great Blood and Catarrh cure. It acts directly upon the mucous membrane through the blood, opens up the nasal passages, soothes and allays all inflammation of the affected parts, reaches the seat of the disease by filtering, cleansing and purifying the blood. MEDERINE has revolutionized the treatment and cure of Catarrh, and created the greatest sensation in medical circles.

Thousands of Catarrh sufferers in every section of the country bear testimony to being cured of CATARRH by the only remedy that cures BARKER'S

A Case of Nasal Catarrh.

John L. Bates of Richmond, Ind., says: "Your MEDERINE is a 'wonder.' I had a bad case of Catarrh of the Head or Nasal Organs. For years I suffered from this disease. I tried almost everything that was advertised without any appreciable benefit. Finally I saw your MEDERINE advertised, and concluded as a last resort to try a bottle of it. I used two courses of your treatment according to directions, and today I consider myself cured and free from the disease in any form."

Bordering on Insanity.

J. M. Lynch of Kansas City, Mo., writes: "I hardly know how to express to you my thanks for the good that MEDERINE has done me. I was a great sufferer from Catarrh of the Head. I was in a state bordering on insanity, with ringing sounds in my ears. I was nearly blind. The lead exertion finished me. I was losing flesh rapidly. I commenced to take MEDERINE, and in two months I was cured. I have no pain in the head, sleep well, eat heartily and am gaining my flesh faster than I lost it."

Write MEDERINE REMEDY CO., Duluth, Minn., for their system of treatment. All letters answered. Illustrations booklet containing testimonials of cures mailed free.

PRICE \$1, PER BOTTLE. does not carry MEDERINE in stock. 6 BOTTLES FOR \$5.

A clerk in a Pittsburg hotel is joint heir with President Roosevelt to an estate in New York valued at several millions of dollars. With his seventeenth interest Clerk Scott will be able to buy a real diamond shirt stud of stunning size, such as hotel clerks usually gaze at with covetous eyes but seldom possess.

PRESIDENT ROOSEVELT says, "there can be no greater offense against the government than a breach of trust on the part of a public official or the dishonest mismanagement of his office, and every effort must be exerted to bring such offenders to punishment by the utmost vigor of the law," and there is no question of the honesty of purpose in the sentiment expressed.

The Northern Pacific fireman who so courageously saved the life of a little child at the imminent peril of his own near Big Lake a day or so ago should at least be given a medal for his bravery. The child had wandered onto the track and it being impossible to stop the heavy train, Roy Brown, the hero in question, quickly gained the pilot and throwing himself as far ahead as possible he snatched the little one from certain death and rolled off into the ditch, neither being injured to any extent.

Victoria and Napoleon.

Queen Victoria once gave a remarkable description of her visit to the tomb of Napoleon I. during the reign of Napoleon III. "The coffin is not yet here," she wrote, "but in a small side chapel of St. Jerome. Into this the emperor led me, and there I stood at the arm of Napoleon III., his nephew, before the coffin of England's bitterest foe, I, the granddaughter of that king who hated him most and who most vigorously opposed him and this very nephew, who bears his name, being my nearest and dearest ally! The organ of the church was playing 'God Save the Queen' at the time, and this solemn scene took place by torchlight and during a thunderstorm. Strange and wonderful indeed!"

Willing, but Not Anxious.

Ministers sometimes observe some curious phases of human nature among persons soliciting their services in the performance of a marriage ceremony.

"Will you take this woman for your wedded wife?" asked a clergyman of a would be bridegroom.

"Yes; I'll take her," remarked the man in a half dejected tone, "but," he added, with surprising frankness, "I'd rather it were her sister."

Worm.

"I am but a worm," I protested, being in a groveling, penitential mood.

"Oh, I think you're just nice enough to eat, actually!" cried the faithful little wife.

"That shows you're getting to be an old hen," whimpered I, more cast down than ever.—Detroit Free Press.

DR. ADLER ON CASSINI

Noted Jew Answers the Ambassador's Statements.

RUSSIA'S POLICY OF SUPPRESSION.

Jews Are Prevented, He Says, From Living in Agricultural Communities, Then Blamed For Not Belonging to Farmers—Restrictions That Are Placed Upon Them.

Dr. Cyrus Adler of the Smithsonian institution, secretary of the International Jewish association and editor of the Jewish Year Book, in the course of conversation the other day on the massacre of Jews in Russia, reviewed the statements of Count Cassini, the Russian ambassador, in a recent interview given out by him, which Dr. Adler treated as an authoritative utterance, says a Washington special dispatch to the New York Times. Quoting the declaration of the ambassador that "the unfriendly attitude toward the Jews is due to the fact that they will not work in the field or engage in agriculture," Dr. Adler said:

"In 1890 there were more than 100,000 Jews in Russia engaged in agriculture, the larger portion of them being in southern Russia. It is true that the tendency toward agriculture on the part of the Jews in Russia has been arrested, but this has not been since 1891, when the May laws of 1882 put a stop to the migration of the Jewish inhabitants of towns into the villages. It is not generous for a country to prevent Jews from living in an agricultural community and then blame them for not being farmers.

"Count Cassini next charges the Jews in Russia with being bankers and money brokers and taking advantage of the Russian peasants in this way. He will probably not be inclined to assert that any really large percentage of the more than 5,000,000 Jews in Russia are bankers and brokers. Moreover, the ill feeling which he describes as existing between them and the peasants does not apply to this particular incident at issue. Kishineff is a town of about 140,000 inhabitants, so that the question of the fury of the villagers would hardly come into the discussion.

"Since the ambassador makes a great point of the unwillingness of the Jews to engage in agricultural pursuits, and since he proclaims the failure of the agricultural colonies, it might be interesting for him to know that in 1889 there were 278 Jewish agricultural colonies in Russia, in which were employed 63,223 people.

"The ambassador states that the Jewish genius is appreciated in Russia and the Jewish artist honored. The May laws, to which reference has been made, restricts the number of Jewish students at the universities and gymnasiums, carrying these restrictions even to private technical schools established by the Jews themselves. Jews were forbidden to be army doctors, the college for veterinary surgeons was closed to them, they were prevented from acting as engineers, excluded from the civil service and only allowed to become members of the legal profession upon a special permit from the minister of justice.

"One of the reasons mentioned by the ambassador for the hostility on the part of the Russians is the unwillingness of the Jews to assimilate. One single incident indicating where the fault lies may be mentioned. The last figures available to me for the recruits in the Russian army are those for 1896, which show that during that year 15,831 were drafted in the Russian army, yet none of them upon any account is allowed to become a commissioned officer. The Russian Jew has, however, the privilege of being killed in defense of his country. It is thus shown from a hasty examination of the interview of the ambassador that he has in no case given an accurate statement of the causes producing the riot at Kishineff under discussion, and one is led to the painful conclusion that he either is unacquainted with affairs in his own country or that he willfully intended to mislead the American people.

"It might not be without interest for the public to know how the particular massacre was brought about. A few days before the Passover a Russian disappeared in Dubossari. The rumor spread that he had been killed by the Jews for ritual purposes. His body was examined and the conclusion reached that his death could not have been encompassed for the purpose of securing his blood. Notwithstanding, a Russian paper published at Kishineff, called the Bessarabyetz, published inflammatory articles against the Jews, and especially one just before the Russian Easter Sunday, and it was upon this day, and largely after leaving the church, that the Russians began to attack the Jews. There seems, therefore, to be a much closer connection between religious hatred and those riots than between them and the economic causes which the ambassador threw out.

"It may not be amiss in this connection to say, what is no doubt fresh in the minds of many American citizens, that no foreign Jew may enter the Russian empire for purposes of travel without subjecting himself to extraordinary restrictions, nor without agreeing to leave the country within a definite period. Such a restriction would even apply to a member of congress or of the British parliament or of the Italian cabinet, if a Jew. Something other than economic reasons enter here."

Victoria and Napoleon.

Queen Victoria once gave a remarkable description of her visit to the tomb of Napoleon I. during the reign of Napoleon III. "The coffin is not yet here," she wrote, "but in a small side chapel of St. Jerome. Into this the emperor led me, and there I stood at the arm of Napoleon III., his nephew, before the coffin of England's bitterest foe, I, the granddaughter of that king who hated him most and who most vigorously opposed him and this very nephew, who bears his name, being my nearest and dearest ally! The organ of the church was playing 'God Save the Queen' at the time, and this solemn scene took place by torchlight and during a thunderstorm. Strange and wonderful indeed!"

Willing, but Not Anxious.

Ministers sometimes observe some curious phases of human nature among persons soliciting their services in the performance of a marriage ceremony.

"Will you take this woman for your wedded wife?" asked a clergyman of a would be bridegroom.

"Yes; I'll take her," remarked the man in a half dejected tone, "but," he added, with surprising frankness, "I'd rather it were her sister."

Worm.

"I am but a worm!" I protested, being in a groveling, penitential mood.

"Oh, I think you're just nice enough to eat, actually!" cried the faithful little wife.

"That shows you're getting to be an old hen," whimpered I, more cast down than ever.—Detroit Free Press.

DR. ADLER ON CASSINI

Noted Jew Answers the Ambassador's Statements.

RUSSIA'S POLICY OF SUPPRESSION.

Jews Are Prevented, He Says, From Living in Agricultural Communities, Then Blamed For Not Being Farmers—Restrictions That Are Placed Upon Them.

Dr. Cyrus Adler of the Smithsonian Institution, secretary of the International Jewish association and editor of the Jewish Year Book, in the course of conversation the other day on the massacre of Jews in Russia, reviewed the statements of Count Cassini, the Russian ambassador, in a recent interview given out by him, which Dr. Adler treated as an authoritative utterance, says a Washington special dispatch to the New York Times. Quoting the declaration of the ambassador that "the unfriendly attitude toward the Jews is due to the fact that they will not work in the field or engage in agriculture," Dr. Adler said:

"In 1890 there were more than 100,000 Jews in Russia engaged in agriculture, the larger portion of them being in southern Russia. It is true that the tendency toward agriculture on the part of the Jews in Russia has been arrested, but this has not been since 1891, when the May laws of 1882 put a stop to the migration of the Jewish inhabitants of towns into the villages. It is not generous for a country to prevent Jews from living in an agricultural community and then blame them for not being farmers.

"Count Cassini next charges the Jews in Russia with being bankers and money brokers and taking advantage of the Russian peasants in this way. He will probably not be inclined to assert that any really large percentage of the more than 5,000,000 Jews in Russia are bankers and brokers. Moreover, the ill feeling which he describes as existing between them and the peasants does not apply to this particular incident at issue. Kishineff is a town of about 140,000 inhabitants, so that the question of the fury of the villagers would hardly come into the discussion.

"Since the ambassador makes a great point of the unwillingness of the Jews to engage in agricultural pursuits, and since he proclaims the failure of the agricultural colonies, it might be interesting for him to know that in 1889 there were 278 Jewish agricultural colonies in Russia, in which were employed 63,223 people.

"The ambassador states that the Jewish genius is appreciated in Russia and the Jewish artist honored. The May laws, to which reference has been made, restricts the number of Jewish students at the universities and gymnasiums, carrying these restrictions even to private technical schools established by the Jews themselves. Jews were forbidden to be army doctors, the college for veterinary surgeons was closed to them, they were prevented from acting as engineers, excluded from the civil service and only allowed to become members of the legal profession upon a special permit from the minister of justice.

"One of the reasons mentioned by the ambassador for the hostility on the part of the Russians is the unwillingness of the Jews to assimilate. One single incident indicating where the fault lies may be mentioned. The last figures available to me for the recruits in the Russian army are those for 1896, which show that during that year 15,531 were drafted in the Russian army, yet none of them upon any account is allowed to become a commissioned officer. The Russian Jew has, however, the privilege of being killed in defense of his country. It is thus shown from a hasty examination of the interview of the ambassador that he has in no case given an accurate statement of the causes producing the riot at Kishineff under discussion, and one is led to the painful conclusion that he either is unacquainted with affairs in his own country or that he willfully intended to mislead the American people.

"It might not be without interest for the public to know how the particular massacre was brought about. A few days before the Passover a Russian disappeared in Dubossari. The rumor spread that he had been killed by the Jews for ritual purposes. His body was examined and the conclusion reached that his death could not have been encompassed for the purpose of securing his blood. Notwithstanding, a Russian paper published at Kishineff, called the Bessarabyetz, published inflammatory articles against the Jews, and especially one just before the Russian Easter Sunday, and it was upon this day, and largely after leaving the church, that the Russians began to attack the Jews. There seems, therefore, to be a much closer connection between religious hatred and those riots than between them and the economic causes which the ambassador threw out.

"It may not be amiss in this connection to say, what is no doubt fresh in the minds of many American citizens, that no foreign Jew may enter the Russian empire for purposes of travel without subjecting himself to extraordinary restrictions, nor without agreeing to leave the country within a definite period. Such a restriction would even apply to a member of congress or of the British parliament or of the Italian cabinet, if a Jew. Something other than economic reasons enter here."

A MOST PAINFUL ACCIDENT

Switchman Porter, of Fargo. Brought to the Sanitarium, Suffered Great Pain and Agony.

The following regarding the accident to Switchman Porter, of Fargo, who is at the N. P. Sanitarium is taken from the Fargo Call:

"Porter was switching with the north side night crew in the yards and stepped between the cars to cut off the car he wanted to set out. His foot was caught between guide and main rail in such a manner that he could not extricate himself but had to stand there and see the car bear down upon him and at the last moment bent over the side and the car passed over the leg, cutting it off just above the ankle.

"The foot was fastened between the rails so tightly that a half an hour's work was necessary to remove it. The guide rail had to be taken up.

"He was taken to the baggage room until the physicians arrived, when he was removed to the St. John's hospital. "Mr. Porter did not lose consciousness at all, but talked with his friends and asked that his brother-in-law Robert J. Wilson, the insurance man, be called, and also suggested that he be taken to the Brainerd Sanitarium.

"Porter has been in the employ of the Northern Pacific for about ten years. Up to about a year ago he was working as a brakeman on a passenger running between here and Mandan. Last year he took a position here as switchman in the yards, so as to be more at home with his family."

TO INAUGURATE A NEW SYSTEM

Book Furnished Street Commissioner to Keep Itemized Account of Expenditures.

INVENTORY TO BE TAKEN SOON

And Street Commissioner Will be Responsible for all City Property.

In a short time now a new system regulating the office of the street commissioner, particularly as affecting the accounting of stock and expenditure of money for labor etc, will be inaugurated.

It will be remembered that this matter was brought up during the winter by Alderman Robertson and it was decided then that in the future the street commissioner would have to report daily, weekly and monthly the operations on the streets in the city. The alderman went on to show that something over \$20,000 had been spent on the streets of the city last year, but under the old system it would be impossible for anyone to tell for what this money had been spent.

City Clerk Low, in compliance with the instructions from the council, has had made a book for the street commissioners' accounts which will have to be kept in detail in the future, and presented to the city council at its first regular meeting every month.

A MOST PAINFUL ACCIDENT

Switchman Porter, of Fargo, Brought to the Sanitarium, Suffered Great Pain and Agony.

The following regarding the accident to Switchman Porter, of Fargo, who is at the N. P. Sanitarium is taken from the Fargo Call:

"Porter was switching with the north side night crew in the yards and stepped between the cars to cut off the car he wanted to set out. His foot was caught between guide and main rail in such a manner that he could not extricate himself but had to stand there and see the car bear down upon him and at the last moment bent over the side and the car passed over the leg, cutting it off just above the ankle.

"The foot was fastened between the rails so tightly that a half an hour's work was necessary to remove it. The guide rail had to be taken up.

"He was taken to the baggage room until the physicians arrived, when he was removed to the St. John's hospital.

"Mr. Porter did not lose consciousness at all, but talked with his friends and asked that his brother-in-law Robert J. Wilson, the insurance man, be called, and also suggested that he be taken to the Brainerd Sanitarium.

"Porter has been in the employ of the Northern Pacific for about ten years. Up to about a year ago he was working as a brakeman on a passenger running between here and Mandan. Last year he took a position here as switchman in the yards, so as to be more at home with his family."

TO INAUGURATE
A NEW SYSTEM

Book Furnished Street Commissioner to Keep Itemized Account of Expenditures.

INVENTORY TO BE TAKEN SOON

And Street Commissioner Will be Responsible for all City Property.

In a short time now a new system regulating the office of the street commissioner, particularly as affecting the accounting of stock and expenditure of money for labor etc, will be inaugurated.

It will be remembered that this matter was brought up during the winter by Alderman Robertson and it was decided then that in the future the street commissioner would have to report daily, weekly and monthly the operations on the streets in the city. The alderman went on to show that something over \$20,000 had been spent on the streets of the city last year, but under the old system it would be impossible for anyone to tell for what this money had been spent.

City Clerk Low, in compliance with the instructions from the council, has had made a book for the street commissioner's accounts which will have to be kept in detail in the future, and presented to the city council at its first regular meeting every month.

THE WORK IN MINNESOTA.

Which Will be Done Under the Supervision of the Government's Bureau Of Forestry.

The work which will be done in Minnesota and in Michigan this year under the immediate direction of the government's bureau of forestry will be of great interest and lasting importance. It will commence in Michigan, July 2, and in Minnesota about July 20, continuing in both states until late in the fall, and will be followed by the publication and free distribution of numerous pamphlets and bulletins for the especial benefit of all persons in these states, and elsewhere in the country, who want to post themselves regarding any phase of the forestry question or regarding sand dunes and how to reclaim them, either for agriculture or for reforestation.

At the head of the work will be H. B. Kempton of the forestry bureau, with headquarters in Minneapolis. Under him will be ten experts. The data collected during the summer and fall will be compiled during the winter, and as fast as possible issued in the form of bulletins. In addition, it is the purpose of the general government to lend itself in all proper way to the stimulation of public interest in forestry, and to that end any person in the country who may own a piece of land which is sandy, or which for other reasons he may want to cover with a forest, will receive all the help he may need free of cost from the general government.

DEFEATS BOTH RIVALS.
Reliance Proves Her Worth in a Stiff
Breeze and Heavy Sea.
Newport, R. I., June 30.—The new
cup yacht Reliance Monday proved its
worth as a heavy weather boat by de-
feating the Columbia and Constitution
in a stiff easterly breeze and a lumpy
sea over a thirty-mile course, fifteen
miles of which was a beat to wind-
ward. The Reliance sailed the course
in four minutes, nine seconds less than
did the Columbia and four minutes,
fifty-eight seconds less than did the
Constitution.

All the racing in which these boats
have participated up to Monday has
been in light airs and smooth water,
but Monday afternoon there was a
good, whole-sail breeze and consider-
able jump to the water, conditions that
are exactly suited to the Columbia.
With her owner, E. D. Morgan, at the
helm, the old cup defender sailed a
grand race, reaching the windward
mark only one minute, fifty-six sec-
onds astern of the Reliance and one
minute thirty-one seconds ahead of
the Constitution.
On the run home, however, the Re-
liance pulled away steadily from both
her opponents, while the Constitution
gained considerably on the Columbia.
Captain Barr sailed the new sloop for
all there was in it and gave his rig-
ging and spars a thorough testing.
Monday's race was the first of a
series given by the New York Yacht
club and there will be racing every
day this week. Former Commodore
E. Cass Ledyard has offered a cup for
the boat which makes the best showing
in the series, and Rear Admiral Cor-
nellius Vandervilt will give a cup to
the craft that comes off second.

VISITS THE DEPARTMENT.
Postmaster General Payne Still Under
Orders of His Physician.

Washington, June 30.—Postmaster
General Payne was at the department
Monday, but under the orders of his
physician, remained only a short time.
Accompanied by Mrs. Payne, he will
leave here next Friday for the Cata-
kills, to be the guests of Roswell Miller
of New York. Mr. Payne will remain
over the Fourth of July and expects
to return to his desk early next week.
He had no news to make public Mon-
day regarding the postal investigation.
The inspectors are busy and the end
is not yet in sight. Fourth Assistant
Postmaster General Bristow said that
he could not approximate the date of
the completion of the investigation.
Mr. Bristow is going to Milano to spend
part of his vacation fishing as soon as
the investigation is over, but this may
not be until late in the summer.

Third Assistant Postmaster General
Madden returned here Monday from
Detroit. He was closeted with Post-
master General Payne and Fourth As-
sistant Postmaster General Bristow,
with whom he discussed his recently
published letter to the postmaster gen-
eral calling for an investigation of the
contract held by a manufolding com-
pany of Franklin, Pa.

Mr. Madden explained his letter to
the officials. It is understood that he
expressed regret at having acted hastily
and repudiated any intention of re-
flecting on officials of the department
in connection with the published criti-
cisms of the contract. Mr. Madden
had nothing to say for publication.

LINE TO SALT LAKE CITY.
Gould Millions Back of a New Trans-
continental Road.

San Francisco, June 30.—Referring
to the incorporation under the laws
of Nevada of the Western Construc-
tion company, with a capital stock of
\$50,000,000, the Bulletin says:
The purpose of the corporation is to
undertake all the construction of the
Western Pacific company, which is
projecting the Beckwith Pass Trans-
continental line to Salt Lake City.

It has been insistently stated that
the Gould millions are back of the new
road in order to make transcontinental
connections with the Gould lines at
Salt Lake, the Denver and Rio Grande
being one of the properties. There
will be no delay in building a roadbed
and laying tracks on the surveys. Of
the capital stock, \$1,500,000 has been
subscribed.

WOUNDS SIX PERSONS.
Negro Fires a Shotgun Into a Crowded
Trolley Car and Escapes.

Media, Pa., June 30.—Six persons
have been shot and severely wounded
in a trolley car between Media and
Chester. A negro, believed to have
been seeking revenge because the con-
ductor of the car recently ejected him,
discharged both barrels of a shotgun
at the car as it passed a lonely spot
in the country.
The car was crowded and the shots,
coming from the dark roadside, caused
a wild fright among the passengers,
most of whom were women. Four of
the latter were among the wounded.
They received shots about the arms
and chest.
The negro fired from a clump of
bushes and in the excitement which
ensued made his escape.

WOODWORKERS MAY STRIKE.
Five Thousand Men Demand Increases
in Wages.

Chicago, June 30.—At a conference
between representatives of the Manu-
facturers' Woodworkers' association
and Amalgamated Woodworkers' union
Monday the union business agents re-
fused a proposal from the companies
and broke off all negotiations, and
5,000 men may go on strike.
The offer of the association was to
renew the two-year agreement with
wage increases ranging from 7 1/2 to 10
per cent. The union demands in-
creases ranging from 12 1/2 to 20 per
cent. The manufacturers declare that
their offer increases Chicago wages
20 per cent over wages paid for simi-
lar work in surrounding cities.

FEARS UNREST IN CHINA.
Rear Admiral Evans Recommends
More Marines for Olongapo.

Washington, June 30.—Rear Ad-
miral Evans, in a report to the navy
department, has again called attention
to the necessity for maintaining an
adequate force of marines at Olonga-
po in the event of an emergency in
China. He regards the internal un-
rest there with apprehension and re-
commends that the force of marines at
Olongapo be increased from 1,000 to
1,500.

CLASH IS IMMINENT
PREMIER OF BULGARIA ANTICI-
PATES WAR WITH TURKEY IN
NEAR FUTURE.
WORSE THAN EVER BEFORE
SITUATION MORE GRAVE THAN
SINCE THE DELIVERY OF THE
TURKISH NOTE.

London, June 30.—The Belgrade cor-
respondent of the Times says M.
Petroff, the Bulgarian premier, has
given an interview in which he de-
clared that the sultan of Turkey and
the Bulgarian government were both
opposed to war, but the situation was
worse than at any time since the de-
livery of the Turkish note last spring.
Though most of the prisoners at Sa-
lonica have been released, 400 fresh
refugees have arrived at Adrianople.
The aim of the Turks, the premier is
reported as saying, is the deliberate
extermination of the Bulgarians in
Macedonia by methods scarcely short
of massacre, and the high officials in
Turkey are promoting the war move-
ment.

M. Petroff anticipates a war and ex-
presses contempt for the Turkish
army, which, he says, cannot mobilize
inside of two months, whereas Bul-
garia can mobilize an army of 250,000
well armed men very quickly. It is
possible, he thinks, that the sultan, in
order to avert a war, may make con-
cessions, but unless he does so, a
catastrophe is imminent.

KING PETER'S TROUBLES BEGIN.
Servian Government and Skupstina
Fail to Agree.

London, June 30.—The Times cor-
respondent at Belgrade telegraphs
that at yesterday's sitting the skup-
stina demanded that the new govern-
ment should present itself to the cham-
ber, but the government declined to
do so on the ground that the ministry
was the same as that previously ap-
proved by the skupstina. The inde-
pendent radicals demand a dissolution
and an immediate general election.
The situation, concludes the corre-
spondent, is not clear and King Peter's
troubles have begun.

Vienna, June 30.—Remorse has over-
taken some of the Servian officers who
participated in the recent royal mur-
ders. Rumors of wholesale suicides
have reached this city from Belgrade.
It is said that there is a serious cleav-
age of opinion in the army and that
many duels are imminent between the
leading conspirators and the officers
of the provisional garrison, who con-
demn the palace massacre.

THE MANCHURIAN QUESTION.
Matter Will Be Permitted to Rest for
a Time at This End of the Line.

Washington, June 30.—It is indicat-
ed now that the Manchurian question
will be permitted to rest temporarily
so far as action at this end of the line
is concerned, since Secretary Hay has
left the city for a two weeks' vacation
and Count Cassini, the Russian am-
bassador, is about to sail for Europe.
There are indications, too, that the
Russian government has found it pos-
sible to shape her policy respecting
Manchuria so as to be more accept-
able to the United States. Secretary
Hay and Count Cassini within the past
week have conferred on this subject
and it is apparent that there have
been some developments which offi-
cials do not care to make public at this
time. In the negotiations with China
for a commercial treaty, this govern-
ment has been insistent on the opening
of certain ports in Manchuria, and the
new turn appears to have given a more
hopeful feeling in that direction.

TROOPS IN READINESS.
Italian Government Preparing for the
Death of the Pope.

London, June 30.—Although the
health of the pope is much improved,
the Italian government, so as to be pre-
pared for any eventuality, has ordered
two regiments in the provinces to be
kept ready to come to Rome and re-
inforce the garrison in this city so that
the authorities will have a sufficient
force to maintain order and insure the
liberty of the conclave should it be-
come necessary to hold one. If the
cardinals, as after the death of Pius
IX, decide to meet at the vatican, the
government will surround the palace
with a cordon of troops to prevent any
attempt against the freedom of the
conclave and also the removal of
valuables from the vatican during the
interregnum, as was customary before
1870.

PEASANTS ATTACK TROOPS.
Five Croats Killed and Several
Others Wounded by the Soldiers.

Vienna, June 30.—One thousand
peasants at Koprivnits, Croatia, where
Friday's disturbances took place, on
Saturday attacked the troops' quar-
ters there. The soldiers fired on the
mob, killing five persons and wound-
ing several others. Many persons
were arrested, and a battalion of in-
fantry has been sent thither. So
many arrests have been made at
Warasdin, where disturbances also oc-
curred, that the prisons are full and
the authorities are using private
houses and stables as prisons.

CELEBRATION CONCLUDED.
Tablets Marking Spots Associated
With Life of John Wesley Unveiled.
Savannah, Ga., June 29.—Bicenten-
ary celebration of the birth of John
Wesley was concluded Monday with
the unveiling of three tablets marking
spots intimately associated with the
great preacher's life. Wesley hymns
were sung as the last tablet, which
marks Wesley's home in Savannah,
was unveiled. Each tablet was draped
in the Stars and Stripes and the Union
Jack.

To Fight the Beef Trust.
Kansas City, Mo., June 30.—Rep-
resentatives of the United States Pack-
ing company, organized under the laws
of Colorado in October, 1902, to com-
pete with the beef trust, so-called, have
arrived in Kansas City to consider the
question of establishing a million dol-
lar packing plant here.

Receiver for Petroleum Company.
Lima, O., June 30.—Harry H. Ad-
kins has been appointed receiver for
the Star Petroleum company. Frank
H. Blackman, a Detroit stockholder
made the application for a receiver.
The company is capitalized at \$1,000,
000 and its property is said to be
heavily encumbered.

TELEGRAPHIC BREVITIES.
Yellow fever has made its appear-
ance in Tehuantepec, Mex.
Thieves looted the residence of the
German consul at Chicago during the
absence of the family.
Joseph Prohowski, a carpenter, aged
thirty-five, of St. Paul, was drowned
in Round lake in seven feet of water.
Lou Dillon Monday afternoon broke
all records for a mile to wagon for
troopers, going the distance in 2:04 1/4
at Cleveland, O.
L. T. Boyd established a new am-
ateur record on the links of the Mil-
waukee Country club Monday, making
the nine holes in thirty-four.

George Meredith, the novelist, who
has been ill for some time, at London
has suffered a relapse and his condi-
tion is announced to be critical.

Evidence is being submitted to the
Kansas supreme court in the case of
Chauncey Dewey and his cowboys, ac-
cused of killing the Berry family.

The state department has been ad-
vised that the governments of England
and Portugal are making ready to
show hospitality upon the American
squadron in Europe.

The situation in Hayti is disquiet-
ing. The foreign minister and the
minister of the interior have resigned
and no successor has been appointed
to the late minister of finance.

The visit of the Russian war minis-
ter, General Kuropatkin, to Japan, has
according to the Japanese newspapers
had a very satisfactory effect on the
relations between Russia and Japan.

After being denied admission to the
Minneapolis city hospital and pro-
nounced by a doctor from that insti-
tution as not needing medical attend-
ance, Martin Roach died in cell at the
jail Monday.

Young Corbett of Denver, champion
featherweight of the world, won the
decision over Jimmy Briggs of Boston
in their ten-round bout at Boston
Monday night. Briggs staid the limit
by clever footwork and blocking.

Sadie Kugler, a domestic, fell into
an old cistern at the home of her em-
ployer in Minneapolis, and for two
hours clung to an iron bar above the
six feet of water in the cistern. She
was in a fainting condition when res-
cued.

FRUITS AND FLOWERS.
High and gravelly soil is the best for
fruit trees.
Mildew is the worst enemy of the
gooseberry. Pruning is the best remedy.
Roses and tallows in equal parts is
an excellent covering for wounds in
fruit and other trees.
To cultivate among trees use a whiff-
letree as short as the horse can walk
with. Turn the books in.
The weeds must be kept down around
the small fruit trees and vines if the
fruit is to mature and ripen rightly.
Look over the orchard occasionally
to see that the suckers are growing from
the roots of the trees to sap the strength
from the main tree.
Plants in windows should be turned
once or twice a week. A fine form,
which is half the beauty of a plant,
cannot be attained without this.
Wood ashes not only help to keep
borers from the roots of trees, but the
trees make a healthier and more vigor-
ous growth and bear much sounder
fruit when they are used.

DEFEATS BOTH RIVALS.

Reliance Proves Her Worth in a Stiff
Breeze and Heavy Sea.

Newport, R. I., June 30.—The new
cup yacht Reliance Monday proved its
worth as a heavy weather boat by de-
feating the Columbia and Constitution
in a stiff easterly breeze and a lumpy
sea over a thirty-mile course, fifteen
miles of which was a beat to wind-
ward. The Reliance sailed the course
in four minutes, nine seconds less than
did the Columbia and four minutes,
fifty-eight seconds less than did the
Constitution.

All the racing in which these boats
have participated up to Monday has
been in light airs and smooth water,
but Monday afternoon there was a
good, whole-sail breeze and consider-
able jump to the water, conditions that
are exactly suited to the Columbia.
With her owner, E. D. Morgan, at the
helm, the old cup defender sailed a
grand race, reaching the windward
mark only one minute, fifty-six sec-
onds astern of the Reliance and one
minute thirty-one seconds ahead of
the Constitution.

On the run home, however, the Re-
liance pulled away steadily from both
her opponents, while the Constitution
gained considerably on the Columbia.
Captain Barr sailed the new sloop for
all there was in it and gave its rig-
ging and spars a thorough testing.

Monday's race was the first of a
series given by the New York Yacht
club and there will be racing every
day this week. Former Commodore
E. Cass Ledyard has offered a cup for
the boat which makes the best showing
in the series, and Rear Admiral Cor-
nelius Vandervilt will give a cup to
the craft that comes off second.

VISITS THE DEPARTMENT.

Postmaster General Payne Still Under
Orders of His Physician.

Washington, June 30.—Postmaster
General Payne was at the department
Monday, but under the orders of his
physician, remained only a short time.
Accompanied by Mrs. Payne, he will
leave here next Friday for the Cata-
kills, to be the guests of Roswell Miller
of New York. Mr. Payne will remain
over the Fourth of July and expects
to return to his desk early next week.
He had no news to make public Mon-
day regarding the postal investigation.

The inspectors are busy and the end
is not yet in sight. Fourth Assistant
Postmaster General Bristow said that
he could not approximate the date of
the completion of the investigation.
Mr. Bristow is going to Miami to spend
part of his vacation fishing as soon as
the investigation is over, but this may
not be until late in the summer.

Third Assistant Postmaster General
Madden returned here Monday from
Detroit. He was closeted with Post-
master General Payne and Fourth As-
sistant Postmaster General Bristow,
with whom he discussed his recently
published letter to the postmaster gen-
eral calling for an investigation of the
contract held by a manfolding com-
pany of Franklin, Pa.

Mr. Madden explained his letter to

LINE TO SALT LAKE CITY.

Gould Millions Back of a New Trans-
continental Road.

San Francisco, June 30.—Referring
to the incorporation under the laws
of Nevada of the Western Construction
company, with a capital stock of
\$50,000,000, the Bulletin says:

The purpose of the corporation is to
undertake all the construction of the
Western Pacific company, which is
projecting the Beckwith Pass Trans-
continental line to Salt Lake City.

It has been insistently stated that
the Gould millions are back of the new
road in order to make transcontinental
connections with the Gould lines at
Salt Lake, the Denver and Rio Grande
being one of the properties. There
will be no delay in building a roadbed
and laying tracks on the surveys. Of
the capital stock, \$1,500,000 has been
subscribed.

WOUNDS SIX PERSONS.

Negro Fires a Shotgun Into a Crowded
Trolley Car and Escapes.

Media, Pa., June 30.—Six persons
have been shot and severely wounded
in a trolley car between Media and
Chester. A negro, believed to have
been seeking revenge because the con-
ductor of the car recently ejected him,
discharged both barrels of a shotgun
at the car as it passed a lonely spot
in the country.

The car was crowded and the shots,
coming from the dark roadside, caused
a wild fright among the passengers,
most of whom were women. Four of
the latter were among the wounded.
They received shots about the arms
and chest.

The negro fired from a clump of
bushes and in the excitement which
ensued made his escape.

WOODWORKERS MAY STRIKE.

Five Thousand Men Demand Increases
in Wages.

Chicago, June 30.—At a conference
between representatives of the Manu-
facturers' Woodworkers' association
and Amalgamated Woodworkers' union
Monday the union business agents re-
fused a proposal from the companies
and broke off all negotiations, and
5,000 men may go on strike.

The offer of the association was to
renew the two-year agreement with
wage increases ranging from 7 1/2 to 10
per cent. The union demands in-
creases ranging from 12 1/2 to 20 per
cent. The manufacturers declare that
their offer increases Chicago wages
20 per cent over wages paid for simi-
lar work in surrounding cities.

Prevent a Suicide.

Nora Winfrey, nineteen years old, last
night committed suicide by jumping
from a bridge into the Blue river at
Leeds, Mo., and her husband was

CLASH IS IMMINENT

PREMIER OF BULGARIA ANTICI-
PATES WAR WITH TURKEY IN
NEAR FUTURE.

WORSE THAN EVER BEFORE

SITUATION MORE GRAVE THAN

SINCE THE DELIVERY OF THE

TURKISH NOTE.

London, June 30.—The Belgrade cor-
respondent of the Times says M.
Petroff, the Bulgarian premier, has
given an interview in which he de-
clared that the sultan of Turkey and
the Bulgarian government were both
opposed to war, but the situation was
worse than at any time since the de-
livery of the Turkish note last spring.
Though most of the prisoners at Sa-
lonica have been released, 400 fresh
refugees have arrived at Adrianople.
The aim of the Turks, the premier is
reported as saying, is the deliberate
extermination of the Bulgarians in
Macedonia by methods scarcely short
of massacre, and the high officials in
Turkey are promoting the war move-
ment.

M. Petroff anticipates a war and ex-
presses contempt for the Turkish
army, which, he says, cannot mobilize
inside of two months, whereas Bul-
garia can mobilize an army of 250,000
well armed men very quickly. It is
possible, he thinks, that the sultan, in
order to avert a war, may make con-
cessions, but unless he does so, a
catastrophe is imminent.

KING PETER'S TROUBLES BEGIN.

Servian Government and Skupstina
Fail to Agree.

London, June 30.—The Times cor-
respondent at Belgrade telegraphs
that at yesterday's sitting the skupstina
demanded that the new govern-
ment should present itself to the cham-
ber, but the government declined to
do so on the ground that the ministry
was the same as that previously ap-
proved by the skupstina. The inde-
pendent Radicals demand a dissolution
and an immediate general election.
The situation, concludes the corre-
spondent, is not clear and King Peter's
troubles have begun.

THE MANCHURIAN QUESTION.

Matter Will Be Permitted to Rest for
a Time at This End of the Line.

Washington, June 30.—It is indicat-
ed now that the Manchurian question
will be permitted to rest temporarily
so far as action at this end of the line
is concerned, since Secretary Hay has
left the city for a two weeks' vacation
and Count Cassini, the Russian am-
bassador, is about to sail for Europe.
There are indications, too, that the
Russian government has found it pos-
sible to shape her policy respecting
Manchuria so as to be more accept-
able to the United States. Secretary
Hay and Count Cassini within the past
week have conferred on this subject
and it is apparent that there have
been some developments which offi-
cials do not care to make public at this
time. In the negotiations with China
for a commercial treaty, this govern-
ment has been insistent on the opening
of certain ports in Manchuria, and the
new turn appears to have given a more
hopeful feeling in that direction.

TROOPS IN READINESS.

Italian Government Preparing for the
Death of the Pope.

London, June 30.—Although the
health of the pope is much improved,
the Italian government, so as to be pre-
pared for any eventuality, has ordered
two regiments in the provinces to be
kept ready to come to Rome and rein-
force the garrison in this city so that
the authorities will have a sufficient
force to maintain order and insure the
liberty of the conclave should it be-
come necessary to hold one. If the
cardinals, as after the death of Pius
IX, decide to meet at the vatican, the
government will surround the palace
with a cordon of troops to prevent any
attempt against the freedom of the
conclave and also the removal of
valuables from the vatican during the
interregnum, as was customary before
1870.

PEASANTS ATTACK TROOPS.

Five Croats Killed and Several
Others Wounded by the Soldiers.

Vienna, June 30.—One thousand
peasants at Koplenitz, Croatia, where
Friday's disturbances took place, on
Saturday attacked the troops' quar-
ters there. The soldiers fired on the
mob, killing five persons and wound-
ing several others. Many persons
were arrested, and a battalion of in-
fantry has been sent thither. Se-
veral arrests have been made at
Wassadin, where disturbances also oc-
curred, that the prisoners are full and
the authorities are using private
houses and stables as prisons.

FEARS UNREST IN CHINA.

Rear Admiral Evans Recommends
More Marines for Olongapo.

Washington, June 30.—Rear Ad-
miral Evans, in a report to the navy
department, has again called attention
to the necessity for maintaining an
adequate force of marines at Olongapo
in the event of an emergency in
China. He regards the internal un-
rest there with apprehension and rec-
ommends that the force of marines at
Olongapo be increased from 1,000 to
1,500.

marks Wesley's home in Savannah,

in the Stars and Stripes and the Union

lar packing plant here.

FRUITS AND FLOWERS.

High and gravelly soil is the best for
fruit trees.

Mildew is the worst enemy of the
gooseberry. Pruning is the best re-
medy.

Rosin and tallow in equal parts is
an excellent covering for wounds in
fruit and other trees.

To cultivate among trees use a whit-
fence as short as the horse can walk
with. Turn the books in.

The weeds must be kept down around
the small fruit trees and vines if the
fruit is to mature and ripen rightly.

Look over the orchard occasionally
to see that the suckers are growing from
the roots of the trees to sap the strength
from the main tree.

Plants in windows should be turned
once or twice a week. A fine form,
which is half the beauty of a plant,
cannot be attained without this.

Wood ashes not only help to keep
borers from the roots of trees, but the
trees make a healthier and more vigor-
ous growth and bear much sounder
fruit when they are used.
